Action Items

- The NOAA team agreed to review the CWA 319 Penalties calculations issue paper and let the EPA team know if they have additional questions or concur on the recommended option. *NOAA is comfortable with EPA's approach.*
- The legal team will review the rationale for interim approval for OSDS and New Development MMs and provide comments to Don Wayne. *Need to set date*
- The managerial team will review the rationale for interim approval for New Development MMs and provide comments to Don Wayne. The managerial team will review OSDS rationale once legal team completes its review. *Don sent rationale to both the legal and managerial teams for concurrent review. Need to set date.*
- Legal team will prepare talking points for management and to help the technical team craft a response to comments regarding additional management measures. *Need to set date.*
- Forestry/landslides team will provide the following information to the managerial team in the form of talking points: comparison to how Washington addresses high risk landslides' potential impact to water quality in forested areas; EPA/NOAA expectations and suggestions on how Oregon can address this additional MM; whether we have the data to identify landslide prone areas and nearby receiving waters. *Will be discussed on today's call and Sept call.*
- Alan will revise the Forestry/Riparian issue paper to reflect changes suggested at the meeting. *Completed*

· Jayne will set up another call for early September (*set up two shorter calls with understanding that the calls can be cancelled if not needed. See invites.*)
